SciLifeLab platform visit

On October 14 SciLifeLab will visit the University of Gothenburg to inform about the technologies and expertise that are offered at the SciLifeLab platforms to researchers in all of Sweden. The focus will be on Genomics, Bioinformatics and Drug Discovery and Development with other platforms presenting their activities in the form of posters.

Preliminary program

09.30 - 10.15	Welcome and presentation of SciLifeLab including an overview of technical platforms (Mathias Uhlén, Director)
10.15 - 10.45	Presentation of the National Genomics Infrastructure (NGI)
10.45 - 11.00	Coffee break
11.00 - 11.30	Presentation of the Bioinformatics platform
11.30 - 12.00	Presentation of the Drug Discovery and Development platform (DDD)
12.00 - 13.00	Lunch sandwich and posters
13.00 - 15.00	Time slots available to book meeting with representatives from the Bioinformatics platform and the DDD platform (for meetings with NGI, please see the separate NGI program). Posters available.

In association with the poster sessions we welcome input on what you expect from the SciLifeLab National Infrastructure.

More information about how to book individual meetings with representatives from the platforms will be available at www.scilifelab.se

Location: Arvid Carlsson, Medicinaregatan 3, Academicum
